PROFESSIONAL EXPERIENCE

Kellogg School of Management – Northwestern University, Evanston, IL

November 2018—Present

Consultant – Faculty Facing (Managerial Economics, Decision Sciences, and Operations): daily responsibilities include leading client meetings for high-level business processes, IT applications and digital evaluations; maintaining strong relationships with clients to facilitate timely communication to ensure deadlines are met; and training incoming new hires and interns on methodologies and best practices.

- Designed and maintained websites through the Canvas LSM (Learning Management System) platform. Conducted research groups with students to identify pain points in using the platform. Thus, implementing a mobile first approach in building and designing the websites.
- Coordinated Kellogg's first QR code attendance pilot program for faculty that track attendance. Eventually rolling out the pilot to be accessible for all faculty taught courses.
- Work directly with faculty and the IT team to identify the best technology offerings for research and teaching purposes.
- Tech talk guest speaker. Covering best practices on building Kellogg Canvas user interfaces (UI) in order to increase both faculty and student online experiences.
- Automated the building of student demographic index cards by building a web application using regular expressions.
- Participated in Kellogg's career development series that focuses on setting up employees for career advancement through a pair mentorship program.
