## PROFESSIONAL EXPERIENCE

**Kellogg School of Management – Northwestern University**, Evanston, IL

November 2018—Present

*Consultant – Faculty Facing (Managerial Economics, Decision Sciences, and Operations):* daily responsibilities include leading client meetings for high-level business processes, IT applications and digital evaluations; maintaining strong relationships with clients to facilitate timely communication to ensure deadlines are met; and training incoming new hires and interns on methodologies and best practices.

- ❖ Worked directly with key stakeholders of a leading global financial services firm and one of the largest banking institutions in the United States in order to assist in improving and monitoring performance, specifically in their Audit department by enhancing reporting capabilities. This was achieved by building a metric data structure aligned to the firm's strategic objectives.
- ❖ Worked directly with client to build a unique and innovative risk measurement tool to identify, monitor, and report Enterprise and Operational risk for a large US Diversified Financial Services firm. Designed dashboards for risk reporting through a data visualization program, SQL Mobile Software to update metrics on a monthly basis, customized to fit the client's needs.
- ❖ Supported the conversion to a new enterprise governance, risk management, and compliance (GRC) platform spanning 18 separate lines of business for a Fortune 500 company with over \$135 billion in assets. Conversion planning and the analysis of roughly 7,000 risks and 12,000 controls, providing the client alignment suggestions/enhancements.
- ❖ Conducted an assessment of a global bank's Know Your Customer (KYC) Policy by recognizing and bridging gaps between bank procedures and specified regulatory due diligence standards. Assisted in the remediation of the bank's investigation backlog of 2,700 cases targeted by the bank due to potentially suspicious activity, providing the client a customer/account analysis report. Built and managed a Microsoft Access shared database for a team of roughly 30 individuals to distribute assignments and efficiently track progress.
- ❖ Assisted in a 4-year look-back loan review related to the Home Mortgage Disclosure Act (HMDA) for a Top 5 U.S. Bank.

**Kellogg School of Management – Northwestern University**, Evanston, IL

July 2017—November 2018

*Consultant– Faculty Facing (Accounting Information & Management, Finance)*

- ❖ Worked as a team with senior management on various projects, many of which utilized my abilities in Microsoft Excel and strong attention to detail.
- ❖ Assigned responsibility for drafting a presentation that was given to Truepoint clients demonstrating a What-If Analysis of their P&G stock options and an individualized recommendation of the pros and cons of stock option exercise.

## EDUCATION

**Northwestern University**, Chicago, IL

November 2017 – May 2018

*Coding Boot Camp, Computer Science*

- ❖ Focus on various languages including HTML, CSS, JavaScript, jQuery, Bootstrap, Express, REST, React, Node, Database Theory, Firebase, MongoDB, SQL, Command Line, Git and Python.
- ❖ Desire to understand the technology side of the business in order to automate repetitive processes and the ability to communicate with developers.
